

# Research Profiles A “Disruptive” Approach

Presented by:  
Jaime Semple, Prospect Research Manager  
Kiersten Hutchinson, Prospect Research Analyst  
Office of Advancement, Queen's University

SESSION #3A: Wednesday, October 12, 2016  
3:15 – 4:30 pm

---

---

---

---

---

---

---

---

## “Disruptive”

*Disrupt*

to interrupt  
(an event, activity or process) by causing a  
disturbance or problem

*Disruptive*

causing trouble and therefore stopping something  
from continuing as usual (*influence*)

changing the traditional way that an industry  
operates, especially in a new and effective way  
(*technology*)

---

---

---

---

---

---

---

---

## session agenda

-  a brief history
-  “waves” of progress
-  impact
-  complications & challenges
-  perspective
-  q&a

---

---

---

---

---

---

---

---

## audience

How many of us do profiles regularly?  
How many profiles in a month? 15 or less? More than 15?  
Manually? Automated?

---

---

---

---

---

---

---

---

## a brief history

in the beginning...  
profiles were entirely manual  
multitude of profile styles: Basic, Basic+, In-depth  
timeframe to complete a basic profile: 2-4 hours  
timeframe to complete an in-depth profile: 3-6 hours  
significant portion of the time was spent formatting document  
3, then 4 (2010), F/T researchers

---

---

---

---

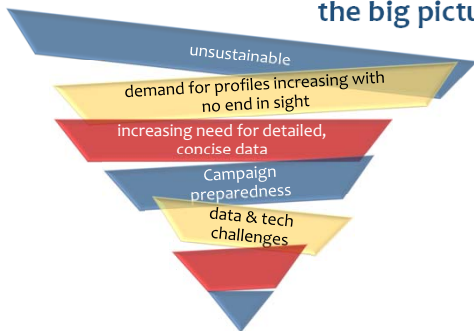

---

---

---

---

## the big picture

---

---

---

---

---

---

---

---

## The 1<sup>st</sup> Wave: Quick fixes

### The Assessment Profile Report

An automated, 2 page profile containing information from Advance ("just the facts")  
Run by end user directly  
Still in use by our fundraisers

### The Wealth Assessment

Development of a 1 page document containing Wealth Indicators and Capacity Assessment  
A change in how we were delivering profiles to meet fundraiser needs; the document was essentially a "snapshot" of portions of the In-depth profile, tailored specifically for pre-solicitation  
Phased out since introduction of SRP

7

---

---

---

---

---

---

---

---

## the quest begins...

Quiet 2006/07-2011-12

Public Launch Fall 2012

Closing Celebration Fall 2016

8

---

---

---

---

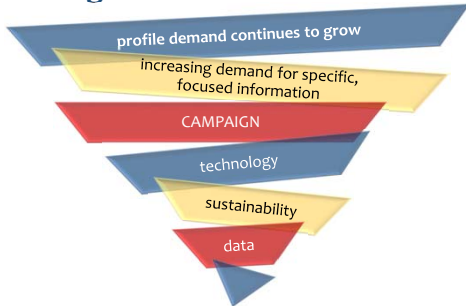

---

---

---

---

## aggravating the issue

9

---

---

---

---

---

---

---

---

## The 2<sup>nd</sup> Wave: harnessing the data

development & experimentation

worked with Advancement Technology Services (ATS) to determine scope of **need vs ability** of database

pushing the limits of the database and the reporting software – **how far could we go?**

our “canned” Profile Reports were born...

10

---

---

---

---

---

---

---

---

## unsettling the status quo

technology is our ally in disrupting the status quo...

developed a **partially system generated document** that would be pre-formatted with headers and sections - ready to fill-in-the-blanks once exported to Word

Advance generated data included: **Bio, Degree, Addresses, Gift, Activity, Prospect**

“Fill-in-the-blank” sections: **Career, Philanthropy, Wealth indicators, Notes, and Assessment (for the in-depth version)**

11

---

---

---

---

---

---

---

---

## the results

semi-automated process

still required significant manual efforts (but drastically reduced from previous process)

Improved efficiency per profile (internal and external)

interesting data challenges

12

---

---

---

---

---

---

---

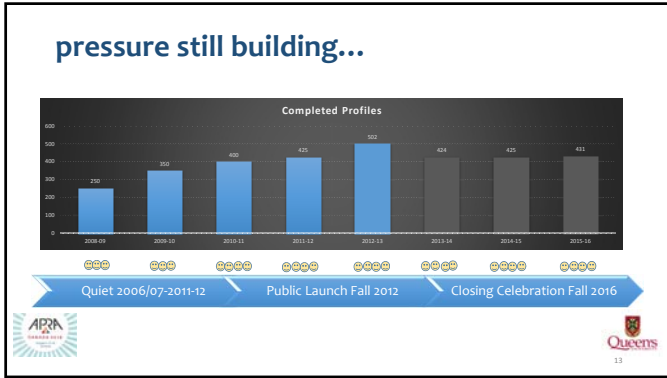

---

---

---

---

---

---

---

---

---

---

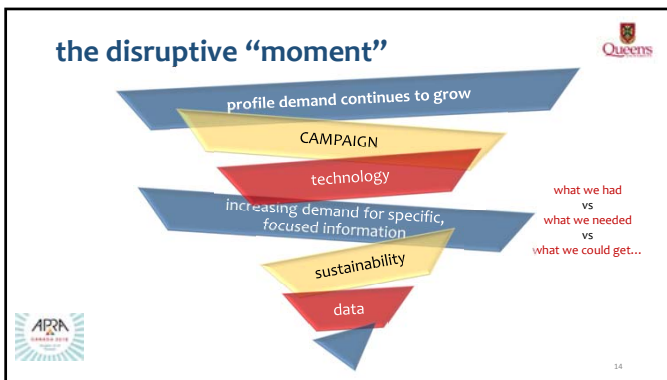

---

---

---

---

---

---

---

---

---

---

---

### getting to the 3<sup>rd</sup> Wave

Profile process was improved, but it could still be better & demand not slowing we needed...

greater automation – formatting & content

data review (to determine what we had on the database vs what we needed to have)

to determine top priorities – our own + discussions with fundraisers and ATS

**We needed something more... we needed something we had not yet seen...**

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

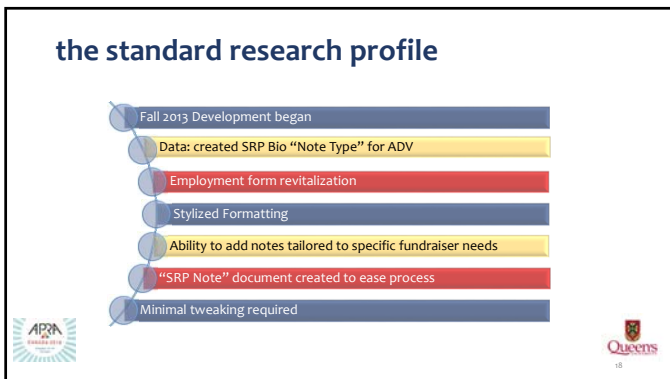

---

---

---

### the SRP report

The SRP Profile Report on ADV – this is where we tailor the profile for specific needs of our “client”

APRA  
Queens

---

---

---

---

---

---

---

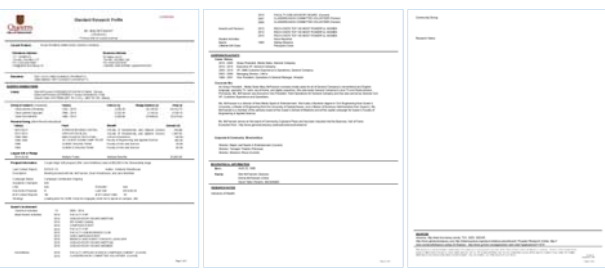

---

---

---

### an SRP

Spring 2014

APRA  
Queens

---

---

---

---

---

---

---

---

---

---

### the results

- database-driven document with the ability to add Notes to the report prior to “run”
- condensed 3+ profiles styles into 1
- exportable to Word or PDF
- reduced “Types” of Employment on ADV from 54 to 4; cleanup of data; more consistent application
- consistent profiles
- daily use – 85-90% of our MG profiles are now created with the SRP Report

APRA  
Queens

---

---

---

---

---

---

---

---

---

---

### The 4<sup>th</sup> Wave: the 1-year evaluation

**assessment**

- observations: our notes/ideas, requests from "customers"
- assessment resulted a "Wish List" of 13\* Recommendations for improving efficiency, performance and content
- data reviews

---

---

---

---

---

---

---

---

### the assessment

examples\* of the Recommendations from the SRP 1-year evaluation:

- employment & directorship information
- marital "status"
- giving
- DNC entities
- gift pledge information
- named fund indicator
- awards & honours

*\*not all Recommendations are included, and not all improvements were part of the Recommendations document*

---

---

---

---

---

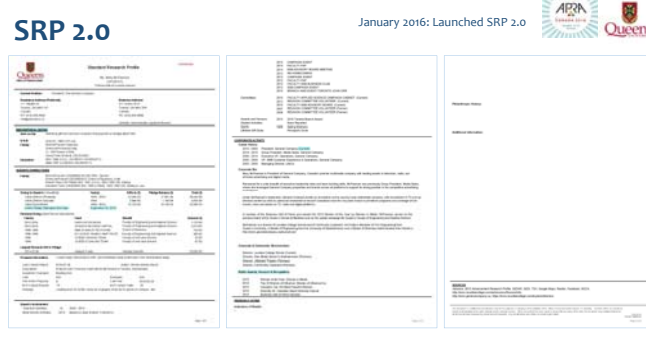

---

---

---

### SRP 2.0

January 2016: Launched SRP 2.0

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

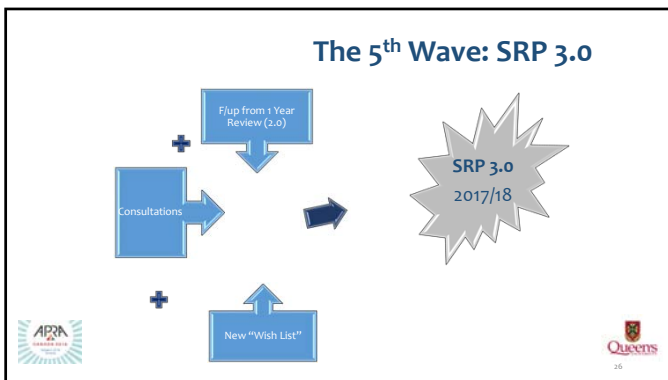

---

---

---

---

---

---

---

---

---

---

---

### impact

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

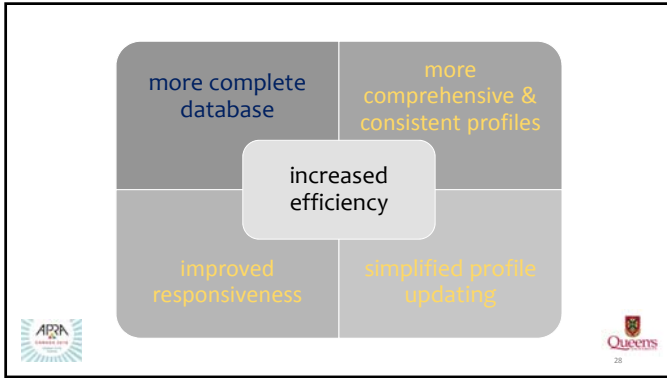

---

---

---

---

---

---

---

---

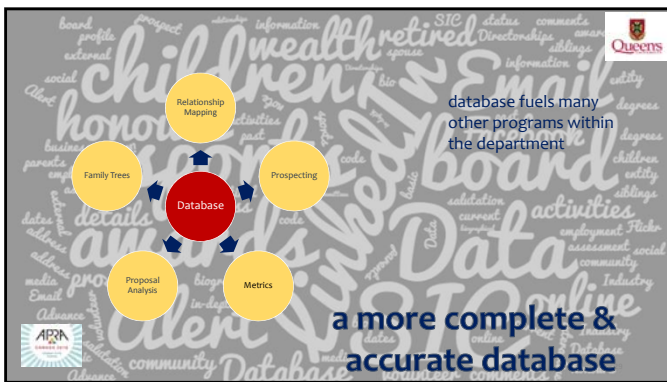

---

---

---

---

---

---

---

---

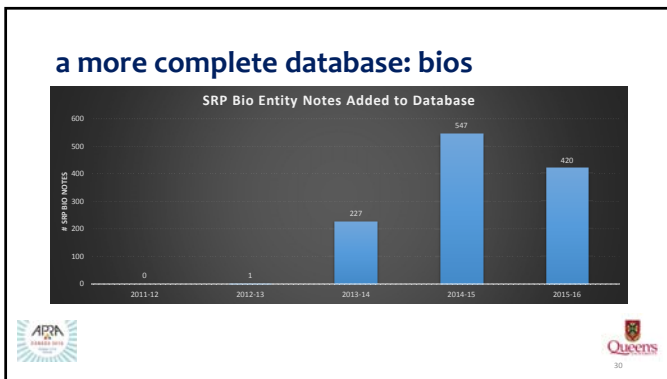

---

---

---

### a more complete database: LinkedIn

31

---

---

---

---

---

---

---

---

---

---

### a more complete database: career history

32

---

---

---

---

---

---

---

---

---

---

more complete database

more comprehensive & consistent profiles

increased efficiency

improved responsiveness

simplified profile updating

33

---

---

---

---

---

---

---

---

---

---

### more comprehensive & more efficient

the SRP contains more information than previous versions, but in a tighter, more concise and consistent presentation

- added Alerts
- more family connections
- clarifications to, & expansion of, giving summary Awards & Honours section

---

---

---

---

---

---

---

---

### increased efficiency

old method: profiles took an age to complete

new method: faster, streamlined approach

---

---

---

---

---

---

---

---

### increased efficiency: time

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

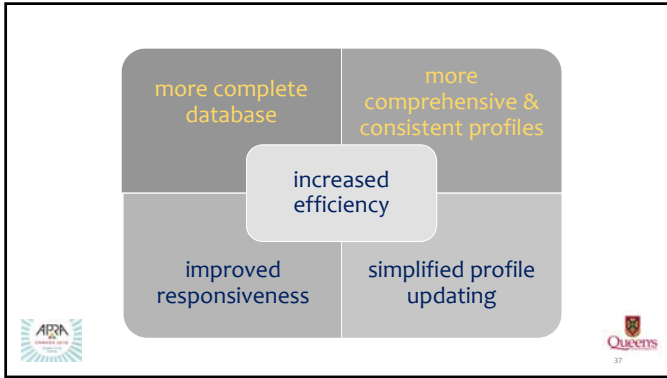

---

---

---

---

---

---

---

---

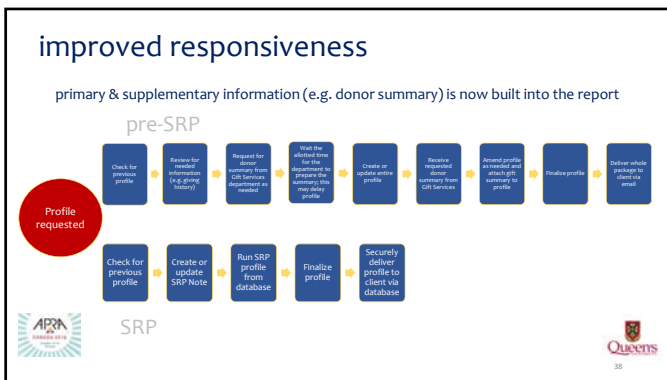

---

---

---

---

---

---

---

---

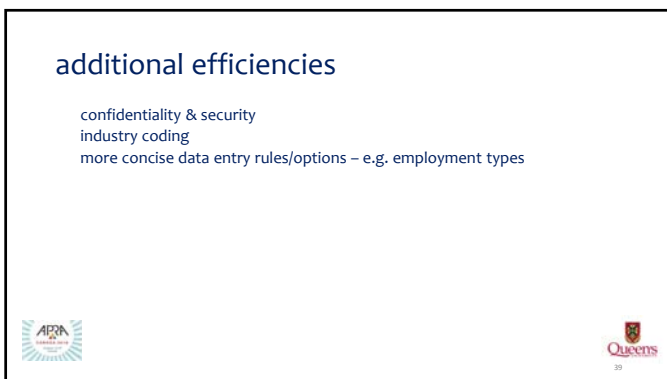

---

---

---

---

---

**the end is only the beginning...**

previously undiscovered or unknown issues reveal themselves over time

*problems* = *new problems*

*solutions*

---

---

---

---

---

---

---

---

**impact of disruption**

ATS	Fundraisers	Ourselves
<ul style="list-style-type: none"> <li>challenged our programmers to help us create something entirely new &amp; different</li> </ul>	<ul style="list-style-type: none"> <li>disrupted without disrupting</li> </ul>	<ul style="list-style-type: none"> <li>challenged ourselves to find a new way of doing our business, without causing a disruption in services provided</li> </ul>

---

---

---

---

---

---

---

---

**advantages of disruption**

"If there's a need for something to be disrupted and it's important to the future of the world then sure, we can disrupt it," *elon musk*

How did we improve the "customer's" world?

- responsiveness
- consistency
- clarity of information/data
- tailored or focused information/data as required
- adapting to their needs

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---
